It is stated on good authority that the fiend negro. Oliver Jones, arrested under circumstances narrated yesterday and held to ball in \$2,500 for raise, has committed this heinous offence for this the fourth time within a few weeks past. It is well known that the German women and children residing in our northern suburbs are in the practice of foraging along the lake shore and throughout the cemetery grounds, collecting drift wood for fuel. It is stated by a reliable person that two or three females have been brutally outraged, and each time by a "negro wearing a white coat," which answers to the description of Jones. In these instances the victims have preferred silence lo publicity, which might have been the case now but for the timely and efficient agency of a citizen. norning, under our amusement head, the adverisement of the opening of the theatre on Monday night. It will be seen that an efficient company has been secured, and every effort will be made to gratify a wholesomo taste for the drama.

Dion Bourcicault, author of London Assurance and other sterling plays, will open the same, accompanied by his young and talented wife, Agnes Robertson. She will on that evening appear in six different characters. In the list of members wo notice the following new names: Miss Annie Melville, Mrs. Strini, Mr. and Mrs. Wood Benson. Mrs. Strickland, and Mrs. Laws; there may he Restorative? If you have not, and wish to change others whose names we have not seen. Those old a good one, and we suppose well cast, comprising the following: Is he Jealous? Bob Nettles, and Young Actress, with a grand overture by the or chestra. We anticipate a crowded house,

The National Hotel. The portals of this splendid new hotel are thrown wide open to the public this day. The bar room

has been open for a few days past, and some boarders have taken quarters in the hotel. Now the house is thrown open to the traveling public, and is ready for the reception of guests from all points.

With everything well ordered and complete throughout, the National presents a most inviting appearance for the comfort and convenience of its

Subscriptions by mail are solicited.

Dr. Chas. L. Lyle, of our city, leaves this norning, for St. Louis, to take charge of the chair of Physiology and Anatomy in the St. Louis College of Medical and Natural Sciences. The Doctor has heen working, with great success, to build up a reputation as the teacher of the principles of his profession. He leaves a good and lucrative practice for his place in the St. Louis school. This school offers many advantages to Southern and Western students - the term being protracted without increase of expense, the Summer and Winter being occupied, its clinical advantages &c., all recommend it. We take pleasure in commending any enterprise calculated to exalt the

standard of medical instruction. FIRE.—About eight o'clock last night a fire one story frame, and was almost entirely consumed The books and papers, we are informed, were all saved; the flames did not communicate to the

News from Utah Territory the 15th of August. We make the following extracts from the "News," of that city:

THE CROPS .- From the North we hear good re ports as to the yield of wheat, considering the damage done by the grasshoppers, who, in their depredations, seem to have been not altogether impartia —some fields having been entirely stripped, while others, immediately adjoining, have not been

In Utah county, especially at Prevo and vicin-ity, we understand that through an abundance of water for irrigation, and the blessing of the Lord

the crops generally will be heavy.

Corn looks well, and the prospects are good for a fair yield throughout the territory, and in some sections it will be the principal grain. In many fields in the neighborhood of this city, we have neticed indications of serious injury to the crops from a destructive worm, and it will be well for farmers to examine their corn, and, if possible, prewent further loss, for assuredly we shall need all that can be raised.

Potatoes are doing finely; and with plenty of corn and potatoes, there will be no danger of star-

Oats, from all we can learn, will not be an average yield. Many fields were ent for fodder while yet green, to save the grasshoppers the task of de-

The fires in the mountains still continue, notwithstanding the rain; and, in consequence, our view is much diminished in extent by the masses of smoke which cover the mountains, and some-times fill the valley.

Salt.—Large quantities of this article are now being deposited in the Tithing store house, and from present appearances, we shall have suffi-cient to save not only ourselves, but others who

This salt is obtained from lakes, which during high water form a part of the Great Salt Lake, but the water having receded, the salt remains upon the surface of the ground to the depth of from three to six inches, in exhaustible quantities, and this at the distance of two to three miles from the

lake. It is very clean and white, but somewhat Toesday, 24, at daybreak, the citizens of Prevo were awakened by the firing of cannon, which continued till sunrise, at which time, the gnn (a six pounder brought from Nauvoo) burst, killing William Nixon, who applied the match—throwing pieces of the gun twenty-five rods, tearing the gnn-carriage to pieces, and breaking the tire, throwing one piece of it thirtyirods. The gun was under the control of Orrin Glazier. There was a wad of potter's clay next the powder, then Louisville and Nashville railroad for Shoperds-was under the control of Orrin Glazier. There was a wad of potter's clay next the powder, then some hay and another wad of olay—the whole attend, it will be a commencement. We never "despise the day of small beginnings."

Chills and Fever.—The Grafenburg fever and ague preparation is said to be one of the cheapest as well as one of the most efficacious remedies for all fevers. Raymond & Patten are the agents, at the Hadroning depot. 74 Fourth street.

Louisville and Nashville railroad for Shoperds-was under the control of Orrin Glazier. There was a wad of potter's clay next the powder, then some hay and another wad of olay—the whole stamped in with a sledge hammer and rammer—although the marshal of the day had given instructions the evening previous that no clay should be used. The gun was charged with two pounds three ounces of rife powder. Mr. Thompson, one of the firing party, remonstrated that the piece would brist if loaded in that way, but Glazler was sanguine that there was no danger.

The grood Templare.—We have received the first number of a new monthly bearing the above name, and devoted to the interests of temperance. It is published in Louisville and St. Louis at the low price of one dollar per year. It seems to be well gotten up, and will prove an interesting periodical to all Good Templare.

SPECIAL NOTICES The circulation of the blood is justly esteemed

e greatest ordination of Divine Providence; by tha eating engine, the heart, it is driven to all parts of the system, giving vigor and strength to the complicated nachinery of man. This living flood, whether we sleep or wake, sallies briskly through the arteries and returns softly through the veins. How necessary that it should be kept free from all impurity, and yet how negliger nany are respecting this great essential to the enjoy ment of perfect health. Derangement in the Liver and Nerves is generally the primary cause, and Jaundice Dyspepsia, which makes life a burden, result from it would rapidly follow sulcide if there was no cure No one would suffer long if he is able to obtain a bottle of Hoofland's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia. They rarely fail in effecting a permanent cure.

Great Cure of Rheumatism. The editors of the Richmond Republican, of Dec. 24th, 1852, say that CARTER'S SPANISH MIXTURE is n

quack medicine.

They had a man in their press room who was afflicted. with violent Mercurial Rheumatism, who was contin ally complaining of mlsery in the back, limbs, anoints; his eyes had become feverish and mattery, neck wollen, throat sore, and all the symptoms of Rheumaand music, and the great beauty in their songs is tism combined with Scrofula. Two bottles of Carter Spanish Mixture cured him, and, in an editorial notice as above, they bear testimony to its wonderful effects and say their only regret is that all suffering with disease of the blood are not aware of the existence of such a medicine. They cheerfully recommend it. See their certificate and notice in full around the be

Why Females Suffer in Health. THE MARRIED WOMAN'S

Private Medical Companion, BY DR. A. M. MAURICEAU, PROPESSOR OF DISEASES OF WOMEN One Hundreth Edition (500,000) 18mo., pp. 250.

A standard work of established reputation, found c ed in the catalognes of the great Trade Sales of New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States.

Every woman can here discover, by comparing her own symptoms with those described, the nature, charac-ter, and cause of her complaint, and be spared much anxiety and suffering, as well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numberless silments to which she is sub-ect. The wife about becoming a mother has often need of instruction and advice in respect to her situalon, which she will here find. This book tells her what Is the matter, and tells her what to do for it, in simple out chaste words, and such as she can understand.

IEMTRACT of a letter from a gentleman in Dayton, Ohio.

DAYTON, May 1, 1847.

DR. A. M. MAURICEAU—My Dear Sir: My wife has been perceptibly sinking for some three years or more, in consequence of great anguish and suitering some months before and during commement; every successive one more and more debinitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despared of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perwal I cannot express to you the relief is anorded my distressed mind, and the joy its pages imparted to my wife, on fearning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I hittle conceived was possible. But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left motherless.

How to Stuff A Goose .- An old Scotch paper tells the following story of stuffing a goose: A man and his wife, two relics of the old school, who reside at Barnsley, bethought themselves the other day, for the first time since their marriage, that they would have a goose for dinner. The wife, with no small degree of consequence, went to market and purchased one; and on her return

me she said to her husband—
"Now, Willie, my lad, what's it to be stufft

wee?"
"Owt ats a green, Sallie, my lass," replied the delighted husband, who marched off to his work, in expectation of returning at noon to a glorious dinner. The dinner hour arrived, and off Willie started, snuffing his nose as he trudged along, fancying that he smelt the stuffing. Grace having been said, Willie commenced carving the goose, and Sallie held her plate for a leg.

"Stop a bit, lass," said Willie, "wot's this here?" rulling a quantity of green worsted from the inside

pulling a quantity of green worsted from the inside with his fork.

"Why, stuffing to be sure, Willie; didna tha say it were to be stufft wi owt at wor green? and we'd nowt else i't housed at were green but that." She had appropriated a part of her petticoat.

RATTLESNAKE BITE .- Dr. Thomas, of Monticello Ind., reports a case of rattlesnake bite. Mr. J. H. S., aged 38, who stands six feet in his stockings—who, by the way, was very fond of brandy—had just been bitten on the inside of his heel by a large just been bitten on the inside of his heel by a large rathemake. Both fangs had been well inserted in the muscles. In thirty-nine hours he was sound and well. I gave him, in the short time alluded to, one quart of brandy, and one and a half gallons of whisky—all without intoxication. He wanted more, and I refused to supply his wants. The next day, Mr. H., his next neighbor, was passing along, and saw him with his pants rolled up to his been berefusted and wading around in some weeds kees, barefooted, and wading around in some weeds and grass with his feet. If. asked if he had lost anything. "No, sir." "What are you doing then?" "I'm hunting a snake. There ain't any liquor only what Dr. Thomas has, and he won't let me have any, unless I am snakebit; so I'm hunting one."

MODESTY WHERE LEAST EXPECTED .- Delicate swell (holding up his long coat previous to running over a dirty crossing.) "Good gracious! I hope to goodness no lady will see my ancles!"

Did apace permit, we could give many hundred certificates from all parts where the Pills have been nsed, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Fills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal sirtues only of vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicine has been found, in the Cherry Pectural and Pills both, to produce a more efficient remedy than had hitheriobsen obtained by any process. The reason is perfectly obvious. While by the old mode of composition every medicine is burdened with more or less of acrimonlous and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the intertand obnovious qualities of each substance employed are left behind, the curative effect is present and the Pills a surer, more powerful anidote to disease than any other medicine known to the world.

CAUTION.

The traveling public are cautioned against the false statements made in the advertisements of the Little Minain Railroad Company. Among the most prominent of these may be named: that their line is the quickest to the East; that there is less certainty of connections by way of Clyde to Cleveland, and that there are less changes of cars on the Pittsburg Express by one roughton the other. Forbearance has been exercised to weeks, on the promise that these misrepresentation should be corrected; but they are still reiterated daily in hand-bills and newspapers, making the caution neces \$\frac{327}{327}\text{LEMPLY O.
